The selected retirement age is used with the lifestyle strategy to gradually switch investments to less risky funds as you approach retirement. It is usually the date you want to start taking your AVC benefits but is for investment purposes only; you don't have to receive your benefits from this date and can change it at any time.

PLEASE NOTE: You can only invest in one Lifestyle fund (i.e. you cannot be in both). It is also not possible to blend Option 1 (Self-Select Funds) and Option 2 (Lifestyle Options) - You can only invest in a single Lifestyle fund or choose your own strategy from the range of Self Select investment funds.

However, if you currently hold the Clerical Medical With-Profits Fund, you can retain these investments and invest in the Lifestyle option.

YOUR AGREEMENT

I confirm that I would like my AVCs to be invested in line with the selection I have made on this form. This form overrides any previous version I have completed regarding the investment of my AVCs in the Fund.
